* - **IMPORTANT NOTE:** Please make sure that your motorcycle has the Delphi® electronic control module (ECM). Some of the early 2003 models have been equipped with different ECMs. If in doubt, refer to the owner's manual or check the number of wired pins in the diagnostic port. If only three of the pins are wired, then it's the Delphi® ECM and the adapter is compatible. If all four pins are wired, then the Motorscan® adapter is not compatible with this motorcycle.
